Logistics for Facilitators:

- Number in top row (10 or 15) is length of time in minutes for the column
- 2 facilitators assigned to a room
- In-Room Orientation (10 minutes) is done by both facilitators
- Simulation and debriefings are 1:1 with paired faculty and student
- Facilitators alternate in room (demonstrated by colors (ex. Light vs dark blue in Sim Room "5"))
- During a 2 hour block, one facilitator will have 3 cases, the other has 2 cases
- Each room has up to 5 students
- Each 1:1 student encounter is 30 minutes long (15 for simulation and 15 for debriefing)
- Simulation and debriefing are done in separate rooms
- While one facilitator is debriefing, the other one is running their case; then switch
